

Highlights of Banana Market Survey

Dr. Hezekiah Agwara<br>Senior Technical Consultant for Value Chains

Kisii<br>October 11, 2017

KAVES $\begin{aligned} & \text { Kenya Agricultural Value }\end{aligned}$ Chain Enterprises Project

## FEEDEUTURE

## Outline

## - Introduction

- Summary of findings
- Potential entry points

KAVES $\begin{aligned} & \text { Kenya Agricultural Value } \\ & \text { Chain Enterprises Project }\end{aligned}$

## Demand drivers

- Large and rapidly growing market for bananas due to rapid growth in demand with changing consumption habits and lifestyle
- Supply lagging demand due to numerous production challenges - large unmet need for both types of bananas
- Projected large increases in consumption.
- Production and trading in bananas highly profitable and rewarding.
- Inadequate commercial value addition and processing.
- Increasing Government policy interest.

## The Surveys

- USAID-KAVES conducted surveys of banana production and markets in 2015.
- Goal: - Provide evidence-based justification for interventions.
- Key objective - gather and analyze information on key constraints and market opportunities.
- Surveyed major growing areas and markets across 11 counties, interviewing 142 traders and 125 farmers.

## Findings of Markets Survey

- Kenya produced an average 1.4 million tons of bananas on about 50,281 hectares between 2011 and 2014 - highest out in 2008/9 (1.69 MMT).
- Leading producers: Meru (19\%); Kirinyaga (14\%); Embu (12\%); Taita Taveta (9\%); Muranga (7\%); Kisii (6\%); Tharaka Nithi (6\%); Bungoma (5\%).
- Highly commercial - farmers sell about 86\% of output, on average.
- Strong demand for bananas - inadequate production, not markets, is the main constraint

## Market Opportunities - Strong Demand

USAID
FROM THE AMERICAN PEOPLE

Average Trade Turnover and Actual Demand for Bananas

| Market Area | Demand status | Total |
| :--- | :--- | :---: |
| Nairobi | Current average (bunches) | 1,046 |
|  | Percent need, net | $44 \%$ |
|  | Additional demand (bunches) | 840 |
| Nakuru | Current average (bunches) | 364 |
|  | Percent need, net | $42 \%$ |
|  | Additional demand (bunches) | 248 |
| Mombasa | Current average (bunches) | 3,555 |
|  | Percent need, net | $50 \%$ |
|  | Additional demand (bunches) | 1,865 |
|  | Current average (bunches) | 427 |
|  | Percent need, net | $\mathbf{8 7 \%}$ |
|  | Additional demand (bunches) | 304 |
|  | Current average (bunches) | $\mathbf{7 8 7}$ |
|  | Percent need, net | $55 \%$ |
|  | Additional demand (bunches) | $\mathbf{4 1 4}$ |

## FEEDFUTURE

## Market Opportunities - Unmet Demand

Estimated Monthly Banana Requirements by Market Area

| Market area | Current Turnover <br> (bunches) | Unmet <br> Demand | Effective Demand <br> (bunches) | Supply Shortfall <br> (bunches) |
| :--- | ---: | ---: | ---: | ---: |
| Nairobi | 90,000 | $44 \%$ | 129,600 | 39,600 |
| Kiambu | 30,000 | $49 \%$ | 44,700 | 14,700 |
| Machakos | 16,000 | $51 \%$ | 24,160 | 8,160 |
| Meru | 140,000 | $70 \%$ | 238,000 | 98,000 |
| Kisii | 33,600 | $87 \%$ | 62,832 | 29,232 |
| Nakuru | 75,360 | $42 \%$ | 107,011 | 31,651 |
| Taveta | 82,000 | $39 \%$ | 113,980 | 31,980 |
| Mombasa | 210,000 | $50 \%$ | 315,000 | 105,000 |
| Total | $\mathbf{6 7 6 , 9 6 0}$ | $\mathbf{5 3 \%}$ | $\mathbf{1 , 0 3 5 , 2 8 3}$ | $\mathbf{3 5 8 , 3 2 3}$ |

## FEEDEUTURE

## Banana Trading Cost/Margins

Banana Trade Cost and Gross Margins, per bunch

| Item | Cost |  |  |  |  |  |  |  | All |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Nairobi | Kiambu | Machakos | Meru | Kisii | Nakuru | Taveta | Mombasa |  |
| Buying price | 563 | 489 | 458 | 269 | 357 | 555 | 192 | 424 | 427 |
| Bulking/transport | 46 | 52 | 26 | 35 | 29 | 46 | 20 | 57 | 40 |
| Dehand/grade |  | 8 |  | 1 |  | 1 |  | 12 | 2 |
| Ripening/storage | 9 | 8 | 5 | 5 | 5 | 2 |  | 41 | 7 |
| Other costs | 2 | 2 |  | 11 |  | 2 | 1 |  | 3 |
| County cess | 15 | 11 | 3 | 9 | 12 | 3 | 10 | 5 | 9 |
| Total cost | 636 | 573 | 493 | 331 | 402 | 611 | 223 | 538 | 488 |
| Gross margin | 405 | 232 | 589 | 144 | 138 | 400 | 105 | 54 | 259 |

## Banana Trading Cost/Margins

Summary of Average Banana Trading Gross Margins

| Items | Amount by market area |  |  |  |  |  | All areas |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Nairobi | Meru | Kisii | Nakuru | Taveta | Mombasa |  |
| Total value | 9,391,592 | 2,950,740 | 4,146,267 | 4,459,461 | 3,266,077 | 25,287,500 | 6,475,489 |
| Gross margin | 3,022,809 | 987,742 | 1,170,591 | 1,895,235 | 1,073,614 | 2,229,839 | 1,833,239 |
| Gross margin (\%) | 39\% | 30\% | 26\% | 40\% | 32\% | 9\% | 35\% |

## Agribusiness opporfunities in banana

1. Production - seedlings propagation; farming
2. Sourcing/supply - aggregation, quality control.
3. Transportation/logistics - bulky, fragile, perishable produce.
4. Storage/preservation technology, facilities, and services.
5. Market facilities
6. Farm and market management info systems.
7. Processing - cottage industries.
